

Sole Source Procurement

The mission of the Center for Food Security and Public Health (CFSPH) is to increase national and international preparedness for accidental or intentional introduction of diseases that threaten food production or public health. The Center works toward this goal by providing: online education and tools for veterinary and animal health professionals on transboundary animal diseases, zoonotic diseases, infection control, and assists local and state governments to prepare for animal health emergencies. The Institute for International Cooperation in Animal Biologics (IICAB) is a part of the CFSPH. The IICAB's mission is to improve the availability, safety, efficacy and use of veterinary biologics (vaccines and diagnostics) throughout the world.

The Center for Food Security and Public Health/Institute for International Cooperation in Animal Biologics has developed and is the sole source for the following materials:
